2. Impacts to shareholders can be divided into 3 types as follows

- 1) Control Dilution
- 2) Price Dilution
- 3) EPS Dilution

In considering the impacts to shareholders, there are 2 cases of impacts as follows

Case 1 The existing shareholders exercise their rights of CIG-W6 in full amount to purchase Company's ordinary shares

Case 2 Other individuals who are not the existing shareholders exercise the rights of CIG-W6 in full amount to purchase company's ordinary shares

The impacts can be summarized as follows

Cases	Control Dilution (not exceeding to)	Price Dilution (not exceeding to)	EPS Dilution (not exceeding to)
Case 1.	0.00%	NA	20.00%
Case 2.	20.00%	NA	20.00%

Remarks

- Control Dilution = new shares issued / (number of paid up shares + new shares issued)
- Price Dilution is based on the 15-day average price (Mar 7, 2016 – Mar 25, 2016), which is THB 0.62 per share
$$\text{Price Dilution} = (\text{Market Price before new shares issuance} - \text{Market Price after new shares issuance}) /$$
$$\text{Market Price before new shares issuance; where}$$
$$\text{Market Price after issuance} = ((\text{Market Price before issuance} \times \text{number of paid up shares}) + (\text{Exercise Price} \times \text{number of new issued shares})) / (\text{number of paid up shares} + \text{number of new issued shares})$$

The issuance of CIG-W6 has no price dilution, since the exercise price of CIG-W6 is higher than the average price of CIG, which is THB 0.62 per share
- EPS Dilution = (EPS before new shares issuance – EPS after new shares issuance) / EPS before new shares issuance, where EPS after new shares issuance = net profit / (number of paid up shares + new shares issued)
- Rounding figures in the calculation and table.

3. Calculation of accommodating shares:

$$\begin{aligned}\text{Portion of accommodating shares} &= [(\text{shares reserved for this warrant offering}) + (\text{shares reserved for the prevailing convertible debenture or warrants excluding shares reserved for ESOP-CD or ESOP-warrant})] / (\text{Number of paid-up and issued shares of the Company, including number of other newly issued shares to be offered simultaneously with this warrant offering}) \\ &= (216,192,158 + 216,192,158) / 864,768,632 \\ &= 50.00\%\end{aligned}$$

Remarks - CD = Convertible Debenture

- ESOP = the offering of securities to directors or employees according to the Notification of the Capital Market Supervisory Board regarding the offering of newly issued securities to directors or employees
- shares reserved for this warrant offering (CIG-W6) = 216,192,158 shares
- shares reserved for the prevailing warrants (CIG-W5) = 216,192,158 shares
- paid-up and issued shares of the Company = 864,768,632 shares
- other newly issued shares to be offered simultaneously with this warrant offering = None
